

THE SLATE YARD, NEW BAILEY, SALFORD

Maple demonstrate range of expertise with window blinds for Salford apartments

LOCATION

Salford

PROJECT

Interior blinds for luxury apartments

DATE

March 2017

CONTRACTORS

Carillion plc

ARCHITECTS

AHR

BACKGROUND

- The Slate Yard is a development of luxury apartments in three new high-rise towers overlooking the River Irwell
- Maple were commissioned to supply blinds for a 10-storey block of 90 apartments, and a 15-storey block of 135 apartments

DESIGN

- The apartments take advantage of natural light, which has pros and cons for residents
- Roller blinds for living areas let in some light (3%), while blinds for bedrooms are full black-out
- Chain-operated roller blinds are fabricated in chalk-white Roe and Medway fabric to complement gloss white venetian blinds

INSTALLATION

- Maple installed 448 roller blinds and 193 venetian blinds for the two towers
- Roller blinds use fire retardant fabric and are compliant with child safety standard BS EN 13120:2009+A1:2014
- All blinds are supplied with a three-year manufacturer's warranty

VERDICT

“Maple’s Solaire roller system is the perfect shading solution for residential and commercial projects. The blinds meet fire and child safety standards, are available with Bio Cote® to fight bacteria and stop infection, and come with a three-year warranty.”

Chris Rimmer, Internal Blinds Manager, Maple

DID YOU KNOW?

Maple has been designing, manufacturing and installing interior blinds and curtains for commercial use since 1983.
